Marston Parish Council.

Procedure for placing commercial signs on Common Land.

Placing a commercial sign on common land requires permission from the landowners as placement does not qualify for `deemed consent`.

1. The company/parishioner must contact the Parish Council via email to agree the placement of the sign.
2. The Parish Council, if satisfied by the reasons for the placement of the signage, can agree for the sign to be placed for a period of 1 day to 3 months.
3. If the signage is required for longer than the agreed period the company/parishioner may request placement for up to another 3 months.
4. All signs must remain clean and safe, and free from obstructing official traffic or transport signage. This will be the responsibility of the owner of the sign.
5. Any unauthorised commercial signs, or signs still up beyond their agreed timescale can be removed by the Parish Council.
