RISK ASSESSMENT + CONTROLS
BUS SHELTER DECORATION

Traffic and Roadside Working
People at risk and how:

- Members of the Parish Council, Contractors, Volunteers, Public.
- Road traffic collision associated with working in close proximity to highways e.g. un/classified roads.
- Fast flying debris from traffic
- Pollution from extended working alongside road.

Our Controls:

1. Wear high visibility jackets.
2. Avoid working with back to the traffic.
3. Do not undertake work that involves having your back to the traffic on the edge of the road without suitable safety barriers in place.
4. Strategic placement of a vehicle to shield/protect the working zone.

Risk Rating: Severity: 4/5 | Likelihood: 4/5 | Risk: High

PPE Recommended:

- Log sleeve clothing – to avoid skin contact
- Gloves – to avoid skin contact
- Eye Protection – to avoid eye contact
- High Visibility Vest – Roadside working operations

Work Operations:

- Brush down boarding with a stiff brush to remove all loose debris and cobwebs etc.
- Check cladding for any loose boards and refix accordingly.
- Place protective sheeting down to the work area to avoid any spillage onto the ground. Ensure the sheeting does not generate a trip hazard.
- Apply with brush, Creocote* to all exposed timber cladding commencing at the top and working down.
- Brush horizontally wherever possible to avoid flicking the Creocote*.
- Brush out any surplus to avoid runs and drips.
- Allow to dry (up to 48 hrs dependent upon weather and application rate).
- Wash out all brushes in White Spirit.

*Creocote has its own safety requirements (covered elsewhere). Always read the label on the container and follow the manufacturers safety guidance and instructions
